1. Improvements/Additions to previous EMSs

Improvements/Additions to previous EMSs

Though Current EMSs have a lot of features, they lack some important features. It is heavily intenet depended. Downloading and viewing offline is not possible.

Adding "View offline" option could be a lot advantageous for students.

Students and Faculty interaction only happens during online classes.

No personal doubt clearance is given.

A way for a student to clear his doubts directly from the faculty can be added.
